

KISSed Quilts 2016-17 Class Schedule – CLASSES HELD at 412 Federal Ave – enter on east end, Room 207

Classes offered Thursdays at 9am unless otherwise noted AND Wednesday evening 5:30pm prior to date indicated. Sign-up is required and preferred one week PRIOR to class, minimum 5 persons per class, otherwise subject to cancellation. If another time is better for most, please let me know.

This season I've planned once a month a basic concept class and a project class (maybe 2). I am hoping this will attract new and old quilters alike. The basic classes are open to anyone wanting to learn about different quilt making techniques or embellishments are all about. The project class is open to those who already know basic sewing and quilting techniques. NOTE: FREE Open Sew is still Tuesday's 1-4pm and 2nd Monday of the Month is 9am-5pm.

October:

6 - BASIC: \$15 - Fusible Applique -- are you doing the McKenna Ryan Road Trip BOM or have a fusible applique project you'd like to work on? If not, I have several in the shop you'd be welcome to consider. Bring your favorite project and let's learn some basic tips and tricks to doing fusible applique.

19 – (Wednesday) BASIC: \$25 - EQ7 -- Electric Quilt 7 software. Have you always wished you could design your own quilt? I do not carry this software in the shop, but am an EQ Artist and this is their 25th anniversary. I hope you've been registering for their giveaways each month. If you have your own version already installed and verified, bring your own laptop and power cord with questions or designs you'd like to learn how to create in EQ7 and I'll step you through the process. I have a standard basic class and can tailor this to your needs.

13, 20, 27 - PROJECT: \$60 - A Ticket in Hand --stop by and get your kit and free pattern. A new border print has arrived that would make a beautiful addition if you want it to be bigger. Most fabrics still available if you'd like to have a coordinating back.

November: 3 – BASIC: \$30 – Ribbon Box Quilt, FREE Pattern. Choose you ribbon colors then straight forward cutting and sewing to get this great modern quilt.

10, 17 - PROJECT: \$60 - Labyrinth Walk --you've likely seen this online and I've recently completed quilting one for a customer. Only two blocks and four fabrics create this impressive 3d design.

December: (a few examples below)

1 - PROJECT: \$30 - Panel quilts --get a quick project done in time for the holidays. I've gotten several fun panels in and am happy to design pieced or plain borders for you to finish them quickly.
